### 1. Nature of Operations

Melior Resources Inc., (the "Corporation"), is a Canadian company focused on making strategic investments in, and developing, resource based opportunities offering capital appreciation potential.

The Corporation is incorporated under the laws of the province of British Columbia, Canada. The Corporation's principal place of business is 120 Adelaide Street West, Suite 2500, Toronto, Ontario, Canada.

As at March 31, 2015, Pala Investments Limited ("Pala") owned directly or indirectly 44.7% of the Corporation's issued and outstanding common shares.

### 2. Summary of Significant Accounting Policies

#### Statement of Compliance

The Corporation applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the IFRS Interpretations Committee ("IFRIC"). These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these condensed interim consolidated financial statements are based on IFRS issued and outstanding as of May 21, 2015, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these condensed interim financial statements as compared with the most recent annual financial statements as at and for the year ended June 30, 2014. Any subsequent changes to IFRS that are given effect in the Corporation's annual financial statements for the year ending June 30, 2015 could result in restatement of these condensed interim consolidated financial statements.

#### New Standards Not Yet Adopted and Interpretations Issued But Not Yet Effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for annual periods commencing after January 1, 2014 or later periods. Many are not applicable or do not have a significant impact to the Corporation and have been excluded from the table below. The following have not yet been adopted and are being evaluated to determine their impact on the Corporation and the expected adoption date.

- (i) IFRS 9 – Financial Instruments ("IFRS 9") was issued by the IASB in October 2010 and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39. IFRS 9 will be effective as at January 1, 2018. The Corporation is in the process of assessing the impact of this pronouncement.
- (ii) In December 2014 the IASB issued amendments to clarify guidance in IAS 1 on materiality and aggregation, the presentation of subtotals, the structure of financial statements and the disclosure of accounting policies. The amendments form a part of the IASB's Disclosure Initiative, which explores how financial statement disclosures can be improved. The amendments are effective from 1 January 2016. The Company is in the process of assessing the impact of this announcement.

There are no other relevant IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

### 4. Investment in Asian Mineral Resources Limited

On June 29, 2012, the Corporation completed a strategic investment in Asian Mineral Resources Limited ("AMR") by means of a private placement whereby it purchased 47,272,727 common shares of AMR (the "AMR Shares") at \$0.11 per AMR Share for total consideration of \$5,200 (the "Strategic Investment"). The common shares are recorded at fair value. The Corporation owns and controls, directly and indirectly, a total of 47,272,727 AMR Shares representing approximately 6% of the issued and outstanding AMR Shares on an undiluted basis.

The Goondicum Ilminte Project comprises two mining leases located in Central Queensland, Australia and is wholly-owned by Goondicum Resources Pty Ltd. ("Goondicum Resources"). Goondicum Resources mined the deposit for a period of nine months between fiscal 2012 and 2013 before placing the mine on care and maintenance in June of 2013. Melior has commenced the upgrade and the necessary work to restart of the Goondicum mine, in August 2014. Goondicum Resources commenced mineral commissioning of the upgraded Goondicum mine processing facility in April 2015.

### 8. Obligation Under Finance Leases

<b>As at</b>	<b>March 31, 2015</b>	<b>June 30, 2014</b>
Obligation under finance leases	\$ 113	\$ 140
Less: Current portion	(54)	(56)
Long-term portion	\$ 59	\$ 84

### 9. Decommissioning Liability

For the Corporation, asset retirement obligations primarily relate to the dismantling of the Goondicum Ilminite Project. The estimate of future site removal and restoration costs depends on the development of environmentally acceptable mine closure plans.

The mine closure provision liability is based upon numerous estimates and assumptions, as follows:

- (a) Total undiscounted amount of future retirement costs was determined to be \$835;
- (b) Weighted average risk-free interest rate at 3.45%; and
- (c) The \$835 undiscounted provision is expected to be fully disbursed in fiscal 2025.

The Corporation has posted rehabilitation deposits totalling A\$863 (\$835) with the State of Queensland as security for the Corporation's obligation under the mine closure plan.

### 10. Commitments and Contingencies

There are currently two separate entities that have a contractual entitlement to receive a royalty based on the gross income of Goondicum Resources derived from all mineral sales from tenements. The total of these royalties is 1.2375% of gross income. A third entity holds the right to receive a gross income royalty of 1.0125% of gross income derived from tenements on all minerals except ilmenite and apatite.

Goondicum Resources pays the state government a royalty of 5% of the revenue for all ilminite sales and approximately \$A0.80/tonne for all phosphate rock sales. Included in mining royalty payable is A\$436 (\$422) (June 30, 2014 - A\$436 (\$439)) pertaining to pre-acquisition production royalties.

A separate entity is also entitled to a success fee of A\$419 if gross revenues of Belridge exceed A\$23,000 in any rolling 12 month period.

### 11. Share Capital (Continued)

#### (b) Stock Options

As at March 31, 2015, 19,436,895 common shares remain available for grant under the stock option plan ("the plan"). Under the plan, the exercise price of each option equals the market price of the Corporation's common shares on the date of grant or the price determined by the Board of Directors, not being less than the market price, and an option's maximum term is ten years. Options are granted upon approval by the Board of Directors.
